01 Product description and specification

Product description	Stainless steel mortuary wash-up sink for body preparation facilities. Specify the required material grade and sink configuration. The sink is manufactured from high grade stainless steel ensuring the highest sanitary standards are met. The sink can be supplied either in Grade 304 or Grade 316 stainless steel depending on requirements. The sink features a robust tubular frame offering high strength and durability. The unit has an all welded construction which will withstand years of the most arduous use. All welds are ground smooth and polished to a satin finish. The mortuary wash-up sink is supplied with a 150 mm splashback protecting the work environment. The unit is easy to install with placement of the unit and connection to plumbing being all that is required. The mortuary sink features adjustable feet to enable easy leveling of the sink on the floor. Construction and features • All welded stainless steel construction with welds ground smooth and polished. • Stainless steel tubular construction ensuring strength and durability. • Available in either Grade 304 or Grade 316 stainless steel. • Adjustable feet allow leveling on the floor.
