01 Product description and specification

Product description	Grade 304 stainless steel forensic body tray for use with compatible Basterfield body rack systems. Fabricated from Grade 304 stainless steel, the tray is robust, corrosion-resistant, and hygienic—ensuring long-term durability and easy sanitation. The tray features a 1.2 mm thick recessed profile with a 20 mm depth, effectively containing fluids during handling. Supported by a sturdy Ø25 mm tubular stainless steel framework, the unit has a total height of 77 mm, including integral carry handles. The total length including handles is 2160 mm, with a usable tray length of 1960 mm and a width of 555 mm, providing ample space for forensic or mortuary applications.
