01 Product description and specification

Product description	Grade 304 stainless steel body tray with a flat base for use with compatible Basterfield body rack systems. Constructed from Grade 304 stainless steel, the tray provides excellent corrosion resistance and long-term durability under demanding conditions. Unlike the H72210 model, the H72211 features a flat 1.2 mm thick tray surface that facilitates ease of handling and cleaning. The tray is mounted on a robust Ø25 mm tubular stainless steel framework, providing strength and stability. Integral carry handles are incorporated into the design, allowing for secure transport. With a usable tray length of 1960 mm and a width of 555 mm, the tray offers generous dimensions to accommodate adult cadavers. The total length with handles is 2160 mm, and the overall height is 77 mm, providing compatibility with Basterfield racking systems and body trolleys.
Short Form Specification	SPECIFICATION USE Use this description when specifying this product range. Basterfield H72211. Stainless Steel Body Tray. Unlike the H72210 model, the H72211 features a flat 1.2 mm thick tray surface that facilitates ease of handling and cleaning. The tray is mounted on a robust Ø25 mm tubular stainless steel framework, providing strength and stability.
