01 Product description and specification

Product description	Heavy-duty stainless steel mortuary table with welded construction for institutional body preparation areas. Manufactured in South Africa, our Heavy Duty Mortuary Table is favored by morticians for its ergonomic and functional design. All welds are ground smooth and polished to a satin finish to ensure hygiene standards are maintained whilst still offering an aesthetic finish. Featuring castors, the table is easy to move and, once in place, an easy-to-use castor locking mechanism ensures the mortuary table is stationary. If you are looking for a mortuary table and sink then why not consider the Basterfield H72430 Mortuary Table & Sink combination unit. Construction and features - Stainless steel type 304 (18/8) & material thickness 1.2 mm. - Stainless steel supporting frame work with stainless steel square legs with cross braces. 4 Castors, two of them with brakes.
