01 Product description and specification

Product description

Grade 304 stainless steel washing table for the ritual washing of bodies in Ghush facilities.

The Muslim washing table is designed to be ergonomic but also strong and long-lasting. The Ghush washing table is manufactured from highly hygienic Grade 304 stainless steel and is finished with a brushed polish finish which is easy to clean and requires little maintenance. The stainless steel also ensures that the table is aesthetically pleasing. The unit is an all-welded design which ensures that the table is sturdy and rigid.

The Muslim washing table has a stainless steel top slab that features a 30 mm deep recess with a fall towards the waste outlet. This ensures that any liquids within the unit are drained away efficiently and hygienically. The top slab also features a tapered edge to allow for the smooth and easy transfer of bodies. The top slab is reinforced with underbracing and the underneath of the slab is coated with vermin proof bitumastic sound deadening. The unit's substructure is manufactured from durable stainless steel tubular frame. The H72446 stainless steel Muslim Ghush Washing Table is manufactured with split perforated body trays which allow for any liquids to be drained into the recess below. From here all liquids are efficiently drained from the unit via the waste outlet. The body trays can be easily removed for cleaning, ensuring the unit can be easily cleaned and maintained in a sanitary condition.

The H72446 stainless steel Muslim Ghush Washing Table is fitted with adjustable foot pieces which ensure the unit can be levelled on the floor after installation. The unit can optionally be supplied with lockable castors instead of the adjustable foot pieces. The castors allow for the Muslim washing table to be easily moved and repositioned. The unit can also be optionally supplied with a height adjustable Awrah dignity frame for added privacy. Where an integral sink is required, this can be supplied with the stainless steel Muslim washing table. The sink can be supplied with lever action taps and a shower hose and head.

Construction and features

- stainless steel Muslim washing table.
- Manufactured from Grade 304 stainless steel ensuring a hygienic unit.
- All surfaces are finished to a brushed polish stainless steel finish which is easy to clean and low on maintenance.
- The Ghush washing table features an all-welded construction ensuring a sturdy and long-lasting unit.
