01 Product description and specification

Product description	Lockable wall-mounted stainless steel cabinet for clinical and mortuary instrument storage, with two glazed-panel doors and two shelves. Choose 900 or 1200 mm length, with Grade 304 or 316 and 1.2 or 1.5 mm thickness options.
Short Form Specification	**SPECIFICATION USE** Use this description when specifying this product range. Basterfield H72460 wall-mounted instrument cabinet. Overall sizes: 900 mm (L) × 550 mm (H) × 300 mm (W), or 1200 mm (L) × 720 mm (H) × 300 mm (W). Standard construction: 1.2 mm Grade 304 stainless steel. Advanced options: 1.5 mm thickness and/or Grade 316 stainless steel. Welded construction; welds ground smooth and polished to a satin finish. Two glazed-panel doors, two stainless steel shelves, lock with two keys and pre-drilled wall-mounting holes. Specify the required size, grade and thickness.

02 Configuration options

Length	900 mm; 1200 mm

Options vary by model; not every combination is available. Use the product page to select a model.

03 Functional features

01 **Wall-Mounted Storage**
Pre-drilled mounting holes provide fixing points for wall installation, keeping the cabinet off the floor.

02 **Glazed Doors with a Lock**
Two glazed-panel doors let you see stored contents. The cabinet is lockable and supplied with two keys.

03 **Two Stainless Steel Shelves**
Two internal stainless steel shelves provide space to organise instruments and everyday supplies.

04 **Welded Satin Finish**
Welded construction with welds ground smooth and polished to a satin finish.

Intended applications	Healthcare Utility Rooms, Laboratory Work Areas, Mortuary Preparation, Storage & Organisation
Industries	Clinical Laboratories, Hospitals & Clinics, Pathology & Mortuary Services

05 Supply and support

Typical lead time	10–15 working days
Warranty	12 months

06 Frequently asked questions

What sizes are available?

The H72460 is available in two overall sizes: 900 mm (L) × 550 mm (H) × 300 mm (W), and 1200 mm (L) × 720 mm (H) × 300 mm (W). The height changes with the selected length; both sizes are 300 mm wide.

Which stainless steel grades and thicknesses can I choose?

Standard models use 1.2 mm Grade 304 stainless steel. Select a length, then enable advanced options to choose 1.5 mm thickness, Grade 316 stainless steel, or both. Each size is available in four grade-and-thickness combinations, giving eight published configurations across the range.

Does the cabinet include shelves, glazed doors and a lock?

Yes. Each cabinet includes two doors with glazed panels, two stainless steel shelves and a lock supplied with two keys. The glazed panels allow the contents to be viewed with the doors closed.

How is the cabinet mounted?

The cabinet is designed for wall mounting and has pre-drilled mounting holes. Confirm the wall construction, fixing method, installation position and space for opening the doors when specifying your cabinet. Ask Basterfield to confirm fixing and installation requirements for your site.

Where can this instrument cabinet be used?

The H72460 provides instrument and supply storage in clinical and mortuary work areas, including hospitals, clinics, clinical laboratories and mortuary preparation rooms. Select the size, stainless steel grade and thickness to suit the room layout and project specification.

Is there a freestanding instrument cabinet alternative?

Yes. The H72461(112-0900) freestanding instrument cabinet is a separate option for floor-standing storage. Find it under Related products and compare its dimensions and specification with your project requirements.

E&OE. Specifications are subject to change without notice.
