01 Product description and specification

Product description	The H72720(112-1600L-F) dissection station is manufactured from Grade 304 stainless steel and measures 1600 mm in length. A removable grid drains towards the basin, which is fitted with an elbow-operated mixer. The backdraft system is directed towards the floor, with a ceiling arrangement available as an option. A removable ventilation grille provides cleaning access. The side table has a flushing arrangement that drains towards the basin. A macerator, wash-down spray gun, compatible mortuary table, LED lamp and UV lamp are optional extras.
