01 Product description and specification

Product description	Grade 304 stainless steel autopsy head rest with 1.2 mm construction for positioning support during examinations. Fabricated from high-grade 1.2 mm thick 304 stainless steel, it offers outstanding corrosion resistance, robust structural strength, and ensures the highest standards of hygiene critical in medical and forensic applications. Measuring 220 mm in length, 80 mm in width, and 60 mm in height, the head rest features a carefully contoured 55 mm radius curve to securely cradle and stabilize the head during examinations. With its simple yet highly functional design, the H72910(112) Autopsy Head Rest is an essential accessory for mortuaries, pathology laboratories, and forensic facilities where reliability, hygiene, and durability are paramount.
Short Form Specification	SPECIFICATION USE Use this description when specifying this product range. Basterfield H72910(112). Stainless Steel Autopsy Headrest. Measuring 220 mm in length, 80 mm in width, and 60 mm in height, the head rest features a carefully contoured 55 mm radius curve to securely cradle and stabilize the head during examinations.

02 Models and configurations

MODEL	DESCRIPTION	PUBLISHED CONFIGURATION
H72910(112)	Headrest Stainless Steel Grade	Standard configuration

03 Application information

Intended applications	Mortuary Preparation
Industries	Pathology & Mortuary Services, Research Laboratories

04 Supply and support

Typical lead time	10–15 working days
Warranty	12 months
